

# IT for your Wellness

Be there for the Wellness of your IT,  
or make a change and use  
IT for your Wellness ?

## Frictional losses and energy blockades in your organisation?

**Just do it like the ancient Chinese, make the energy flow  
in your organisation continuous again!**

IT must not always be there for satisfaction of bureaucracy...  
Concentrate on the really important things in life again finally,  
because we do have just this one only!
