

Baselisk® Whitepaper

Soft Facts Basel II – Chances und Risks

takes your
ideas home...

Function

Baselisk® is designed to visualise, appraise and communicate chances and risiken in the external and internal value cration chain.

On the basis of a preassigned graphical structuring- and appraisal schema you can very easily gather and make up all of your relevant data.

Concerning the outstanding web graphics platform you can memorably communicate and trace all of your relevant chances and risks and its correlations.

We offer substantial options for interaction available by the use of state of the art database technology:

- Searching
- Data Input and gathering, visualisation and formula evaluations
- Annotations
- Comparison lists
- Snapshots and time series
- Calendar functionality and e-mail notification
- Multilingualism support

Customer Benefit

Chances and risiks are inseparably associated. Not used chances are as painful as neglected risiks. A chain is only as strong as its weekest item, therefore you should carefully look at the whole value creation chain all the time.

Using Baselisk® you will **keep track** of your relevant items of you value creation chain and so you get the possibility tu utilize the full chances and risk potential. It will minimise wrong decisions and will maximise the overall profit.

At the same time using Baselisk® you **achieve** a continuous chance and risk management, because every data become stored in an analysable manner and you can combine and compare them at any time.

By the graphical visualisation you get a really quick overview about complexity and details preserves the necessary accuracy. And by the potentials of interactions every coherences become clearly cognizable and easy to communicate. The underlying object oriented schema ensures that your chances and risks become consistent, comparable and easy-to-handle. Your business grows and in future you can also improve your credit rating up to 45%!

The possibilities of instant integration with the other modules of the tool called mem-topics® from memeticor® offers a unprecedented consistence of strategic targets, ideas, chances and risiks, business processes, technical documentation towards problem management and e-learning – the big picture of „soft-facts“.

Win your headstart using Baselisk®!

Technology

Baselisk® is based on the tool mem-topics® from memeticor®, an universal web tool. The technology behind is the object-relational database Cache® from Intersystems®. The graphics is based on the XML based international standard SVG (Scalable Vector Graphics).

All you need is a server running Windows (XP, 2000) or Unix (Linux, etc.) and a client running Microsoft® Internet Explorer® (version 6 or higher) and the free available Adobe® SVG Viewer (version 3.0 or higher).

You may use the instant integration to the other modules of the tools mem-topics® from memeticor®, and you have easy but powerful possibilities of integration by the used architectur (SOAP, ODBC, Java, .NET, SAP, etc.).
